FOR SALE BY ALL DRUGGISTS.

DR. JOHN BULL'S CEDRON BITTERS.

The Latest and Most Important Discovery of the 19th Century.

NO MAN'S NAME IS MORE INTIMATELY CONNECTED with the history of the Materia Medica of the United States, or more favorably known as the pioneer of medical discovery, than that of Dr. JOHN BULL, of Louisville, Ky. His inimitable preparation of Cedron Bitters, has long stood at the head of the various compounds of that valuable drug, which is the Cedron of the West and South, and his Worm Loosener, in less than a year after their introduction, attained a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim to have been the discoverer of Cedron Bitters, but to whom its virtues have been known for more than two hundred years. Armed with it, the Indian bled a patient of the most deadly malarial and bilious diseases, and the most venomous serpents. It is a balm with them that while there is a breath left in the body the Cedron is potent to cure, no matter what the disease may be.

While Dr. Bull is not prepared to endorse this extraordinary statement, he is nevertheless satisfied from a long and careful examination of the evidence relating to its virtues, that as a remedy and preventive for all diseases arising from exposure either to changes of weather and climate, or to the malarial influences, it stands without a rival and justly deserves the reputation it has long enjoyed in Central America and the West Indies.

And its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the whole range of malarial medicine that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensary, pages 1587 and 1588.

A series of experiments, in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a Compound of Cedron with other approved tonics, the whole preserved in the best quality of copper-distilled Bourbon Whisky, which he is confident has no equal in the world.

It might furnish a volume of certificates, but the publisher has since learned how to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. Give the Cedron Bitters a trial, and you will never use any other.

It is not necessary to publish a long list of the diseases for which the Cedron Bitters are a specific. In all diseases of the Stomach, Bowels, Liver, or Kidneys.

In all affections of the Brain depending upon derangement of the Stomach or Bowels.

In Gout, Rheumatism and Neuralgia.

In Fever and Ague.

It is difficult to suppose that any other remedy. It not only cures all these diseases, but it prevents them.

A wine-glass full of the Bitters taken an hour before each meal will obviate the ill effects of the most unhealthy climate, and screen the person taking it against disease under the most trying exposure.
